OTHERWISE KNOWN AS THE NATIONAL INTERNAL REVENUE CODE OF 1997,
AS AMENDED, AND FOR OTHER PURPOSES

EXPLANATORY NOTE

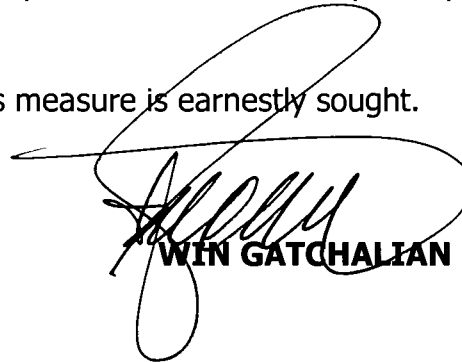

The passage of Republic Act No. 12214 or the Capital Market Efficiency Promotion Act is a signal to the government's staunch stance to promote the development and deepening of the Philippine's capital market.

The measure at hand aims to complement the strides that have been made in CMEPA to take economic development one step further. This bill addresses issues currently faced in the taxation of passive income and financial intermediary such as: complex tax structure owing to having multiple tax rates and bases, inequitable distribution of tax burden due to the different taxation regimes for akin to or similar products, and high administrative compliance cost brought about by the cost of complying with complicated tax regulations as well the incurrence of friction costs from the imposition of Documentary Stamp Taxes.

To address these problems, this measure seeks to introduce a redesigned taxation for the financial sector making it more simple, fair, and efficient. To achieve this end, this measure specifically proposes the following reforms in the Tax Code:

1. Harmonization of business taxes of financial intermediaries such as banks, non-bank financial intermediaries performing quasi-banking functions, and other non-bank financial intermediaries, by imposing uniform tax on financial intermediaries providing similar financial services;
2. Alignment of tax-treatment of life insurance, health-related insurance and other business with similar nature such as pre-need companies, pension fund companies and health maintenance organizations;
3. Rationalization of the documentary stamp taxes; and
4. Repeal of antiquated provisions on the imposition of documentary stamp taxes.

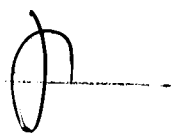

In view of the foregoing, the passage of this measure is earnestly sought.
